Arboris® SRF

WATER & SACCHAROMYCES LYSATE EXTRACT

Skin Repair Factor from stress-activated yeast, rich in LYCD.

- Enhances cellular aerobic respiration and energy metabolism
- Stimulates the synthesis of collagen and hyaluronic acid
- Calms and soothes, reducing skin sensitivity
- Supports wound healing and helps relieve allergic reactions
- Improves overall cellular health for firmer, more resilient skin

Bioferments · Water soluble · Clear yellow liquid

Arboris® PC3

BUTYLENE GLYCOL & CERAMIDE NP

Plant ceramide from rice bran husk that restores the skin barrier.

- Repairs a stratum corneum damaged by dryness
- Restores the skin's natural barrier function
- Leaves skin soft, smooth and supple
- Improves elasticity for a healthier, more youthful look

Functional Actives · Water dispersible · Clear colorless to light amber liquid

Arborcan

BETA-GLUCAN

Up to 90% non-derivatized β-glucan from baker's yeast for repair and recovery.

- Promotes keratinocyte growth and regeneration
- Enhances cellular repair
- Accelerates wound healing

Functional Actives · Water dispersible · Off-white fine powder · β-glucan ≥ 88%

Arboris® SBW 65/95

BOSWELLIA SERRATA RESIN EXTRACT

Frankincense boswellic acids — a natural 5-LOX inhibitor for soothing and eye care.

- Powerful anti-inflammatory action
- Improves microcirculation around the eyes and reduces dark circles
- Diminishes fine lines
- Slows visible signs of aging

Botanical Extracts · Glycol / alcohol soluble · Off-white to light yellow granular powder · boswellic acid ≥ 65% (SBW65)

Arboris® SCT70

CENTELLA ASIATICA EXTRACT

Centella asiatica — 'plant collagen' for regeneration, scar care and barrier repair.

- Stimulates type III collagen synthesis
- Supports healing of cuts, wounds and sunburn
- Used in acne-scar reduction and barrier-repair formulas

Botanical Extracts · Water soluble · Pale yellow to yellow powder

Arboris® Agave

SACCHAROMYCES LYSATE & AGAVE AMERICANA LEAF EXTRACT

UV-stress fermented agave for after-sun and sensitive-skin recovery.

- Soothes post-sunburn discomfort
- Reduces redness
- Accelerates skin recovery — ideal for after-sun and sensitive skin

Bioferments · Water soluble · Clear to slightly hazy liquid

Arboris® AST1

LACTOBACILLUS FERMENT LYSATE

UV-activated Bulgarian Lactobacillus secretion — visibly reduces redness in 15 minutes.

- Increases cellular oxygen consumption and respiration
- Enhances antioxidant capacity and ATP synthesis
- Stimulates collagen production and fibroblast proliferation
- Reduces redness and allergic reactions — visibly within 15 minutes

Bioferments · Water soluble · Dark brown liquid

Arboris® CWherb

WATER & EPILOBIUM ANGUSTIFOLIUM FLOWER/LEAF/STEM EXTRACT

Canadian willowherb for calming, sebum balance and acne-prone skin.

- Rapidly reduces redness and irritation
- Inhibits 5-α reductase to balance sebum
- Antioxidant protection
- Improves tolerance of sensitive skin

Botanical Extracts · Water soluble · Clear liquid

Cytoguard® SFC

LACTOBACILLUS FERMENT

Lactobacillus ferment with bacteriocins for broad-spectrum protection.

- Broad-spectrum antimicrobial activity
- Natural antimicrobial peptides (bacteriocins)
- Strong conditioning benefits

Bioferments · Water soluble · Colorless to yellow liquid

Arboris® WSB

WATER & LACTOBACILLUS/WASABIA JAPONICA ROOT FERMENT EXTRACT

Wasabi stress-ferment peptides — a natural preservative for sensitive skin.

- Gentle and safe for sensitive skin
- Inhibits a range of harmful bacteria
- Ideal for preservative-free formulations

Bioferments · Water soluble · Light yellow to light amber liquid
